We have a fun one, that they want bright red. Can you put together this design when you have a chance? All of the range equipment should be red, but the Combi wont be sprayed any color – it has red mylar on the controls, so that will be help to match.

Let me know if you have any questions ☺

Thank you,

Roxanne Holt (she/her)

Hey Tommy,

Take a look at this cook line and let's put together a Vulcan line. Please provide a quote on doing a basic cook line that will get the job done and look nice and another option with a custom power coat finish.
