To: David Bethel <ddb@davidbethel.com>

Hi David,
Here is another project from Anthony. It has gone through some changes- so if there are questions, after reading through the quote, please reach out to Anthony.
Thank you,
Jill

Design Team,

Another slight change – I am told this is the final selection so this should be it. All units the same except unit #1 which is now a four well hot unit. Sorry for all of the confusion

Design Team,

Here is the updated quote – no changes to the concept submitted.

[View "Boring Middle School \(Five Well Hot\) / 4-Series " Quote](#)

Here were the changes:

- Units 1,2,3 get daisy chained electrical services
- Unit 3 got an additional grommet + outlet for customer supplied piece of CTOP

equipment.

Design Team,

I have new info coming in that will change this project a little. Please hold if you are actively working on this and I will have updated specs over this afternoon.

Thanks

Subject: New 4-Series - Boring Middle School (Paula Craig) - Due 5-28

Importance: High

Design Team,

Here is a new request for modified 4-Series units. They are in a time crunch for these as school wants to get ordered and delivered by September for start of school year.

Units 1 and 2: Position the Equipment to Operator LH Side of Unit and leave 12" Open counterspace on operator Right. Adjust Lengths Accordingly. BG over entire counter on those two.

Let me know if you have any questions – please try to have complete by 5/28 if possible
