Hi David, hope all is well!

Need drawings for Emerson Hospital line left to right is below. Each piece is rear gas connected no overlapping risers or front shelf. All items are on casters and the griddle, 6 burner range and the char-broiler have single deck height risers with no shelf.

VC44GD VCB24B V6B36S VGMT36S 2TR45AF

If you can show one 12 inch section of S grate left hand side on the V6B36S? and a left side splash guard on the 2TR45AF?

I attached a pencil drawing. Any questions let me know.

Kind Regards,

Nils
