Good Afternoon David,

Got a few revisions on Project Gamma. Revised quote and marked up drawings are attached.

The changes are:

- VH-GAMM5:
 - All items revised to be individual items with no overlapping risers/front rails and no shared gas connections
 - Salamander (item 57) to be wall mounted
- VH-GAMM6:
 - Item 166 - condensing unit to be on LEFT.

Hoping to get these back by the end of the week if possible. Please let me know if you have any questions.

Thank you,

Jake Ritchie

Good Afternoon David,

Can you work up a drawing for a couple of fryers on a separate area of this job for Project Gamma?

Quote and drawings attached, but it is basically 2 1TR45CF by themselves. The other equipment in that area is by others.

Please let me know if you have any questions.

Thank you,
