Hi David,

I need to make the following changes / corrections to these drawings.

- Change item #11.1 to a model V4B24C as you picked up on the original drawing.
- Add item #11.2 work top to the left end of 11/11.1. Total length to be 78"
- Item #21A (3GR45MF) should be 15.5" wide each, not 21" as shown.
- Item #22 should be (1) VC44GD, not 2 as shown.
- Items #27 and #28 should be double stacked combi ovens. The elevation reflects single deck units.

Thanks,

Mitch Reilly
