David,

I fixed my quote for both units 30"

If you could just center the divided section and show something for the missing heat we be good. The Hatco you have called out is A_OK.

Hatco GRSBF-54-I that's flush.

David,

Can you note the above as supplied by others on the CAD and send me an update.

Thanks

David,

I just realized the end glass you have drawn is for the "C" cafeteria model – the "S" model gets the 5 sided glass –

Could you update.

Thanks

Jim

Morning,

There seems to be only 1 size / model for the 54" units . GRSB-54-I
It's a bit confusing.

I read it as 55.5 x 21 overall. Do you agree ?
