Hi David,

Please complete a drawing package for the project quoted below. Layout sketch shown below.

[View "Bar Boy/Riverhead High School/SIGSERV" Quote](#)

Thanks,
Joe Lillibridge

Can you add the merchandisers in the quote link below to this lineup? They would go next to each other, at the end of each cold station.

Subject: Updated Drawings Requested - Riverhead High School (Liz Hannon) - Due 3/5

David,

This is kind of an odd request from the DSM for this existing project. They would like this line split into two separate lines per my attached sketch. Units 1,2,3 are the existing units in our drawing, the merchandisers are the same as the existing and they are asking that we ghost in a 46" utility unit that is on-site.

Let me know if you have any questions or this poses any issues – I don't think the individual drawings will need to change at all.

Thanks

Anthony Bruni

David,

This looks good but please add in the other 46" ghost unit to the opposite line where shown in the attached sketch. Each line has an existing "ghost" unit. Thanks

David,

I have the first of three projects for you to draw up if you have the time.

It is a project you worked on previously but with some changes. Please review the updated quote and let me know if you have any questions.

Regarding the layout shown here is the comments I got from Liz "For the high school the drawing should be two lineups that mirror each other: (3 new counters by Vollrath, 2 Federal merchandisers, existing 46" utility counter also by Vollrath) and then that would repeat backwards on the other side."

I will send the other two projects shortly.

Thank you,
Jill
